

Mary's Mount Primary School

EARTHCARE Expo

WEDNESDAY 11 SEPTEMBER 2024

Celebrating our collective efforts towards environmental sustainability and care for our common home.

Prayer for our Earth

Loving Creator,
We praise you for the beauty of the Earth,
our common home.
Open our hearts to hear the cries
of the Earth and the poor.
Grant us wisdom to protect and care for creation,
Living sustainably for the
good of future generations.
May we act as faithful stewards,
Working together for justice and peace,
Inspired by the example of
Saint Francis of Assisi.
Guide us to cherish and respect all life,
As we seek to protect your gift of creation.
AMEN

Today's Program

Presentation of the Catholic Earthcare Level 5 Certification

Welcome – Student leaders

Acknowledgement of Country and School Prayer

Procession Symbols

Seeds of Hope

Represents the potential for new life and growth. It symbolises our commitment to nurturing and sustaining the earth's resources responsibly.

Prayer Intention: May we sow seeds of hope and renewal in our world.

World Globe

Signifies our shared responsibility to care for our common home, acknowledging the global nature of environmental challenges.

Prayer Intention: May we recognise our interconnectedness and work together for the good of all creation.

Living Plant

Represents growth, renewal, and our role as stewards of creation. It symbolises our responsibility to care for the earth and ensure its flourishing.

Prayer Intention: May we nurture life and protect the natural world for future generations.

Sky, Water and Land

It encompasses the responsibility to preserve land, water, flora, fauna, and archaeology. By caring for the land, the land, in turn, would care for us.

Prayer Intention: May we cherish and safeguard the waters and land of the earth, ensuring access for all.

Fruit and Vegetable Basket

Represents the abundance of the earth and the fruits of our labour, highlighting the importance of sustainable agriculture and food security.

Prayer Intention: May we share the earth's bounty with all, ensuring no one goes hungry.

A Candle

Symbolises the light of awareness and action. It represents our commitment to illuminating the path toward ecological justice and sustainable living.

Prayer Intention: May we be guided by the light of wisdom and compassion in our efforts to care for creation.

A Cross

Represents the spiritual dimension of our environmental efforts, reminding us that our care for creation is rooted in our faith.

Prayer Intention: May our actions be inspired by love and faith, reflecting our calling to be stewards of God's creation.

Educational Presenters

Joining us on the day, our MMPS students will participate in educational sessions from the following organisations:

City of Kalamunda & Millennium Kids - Adopt-A-Patch

The City of Kalamunda Natural Areas and Millennium Kids will be working together hands on in our Adopt-A-Patch.

City of Kalamunda - FOGO / Waste Education

The waste services team at the City of Kalamunda will promote FOGO and Waste & Recycling via their educational display and through engagement with students.

Johnny Garlett - Aboriginal Education

Johnny Garlett will be sharing aboriginal perspectives with the children.

Kanyana - Wildlife Rehabilitation Centre

We are a Wildlife Rehabilitation Centre. The main focus of our work is our hospital where we take in injured and sick animals and return them to the wild. We also have a Bilby Breeding Program and an Education Program.

ReMida – Play Experience and Mini Monsters

ReMida collects business and industry offcuts and discards, which are directly repurposed into arts and education activities. Our aim is to find the hidden value in discarded materials and keep them out of landfills.

SERCUL – Macro Invertebrates and Mini Beasts

SERCUL's Phosphorus Awareness Project is an education campaign aimed at increasing people's awareness about the impact of too many nutrients entering waterways. Our display will highlight the connection between what we do in our homes and gardens and the impact it has on waterways.

Waste Sorted Schools - Waste Relay

The WasteSorted Schools program provides support to schools across Western Australia (WA) to promote responsible waste management behaviours, with a focus on waste avoidance and resource recovery. It offers resources and support to implement projects such as recycling, composting and worm farming, which provide meaningful, hands-on learning experiences that are linked to the WA Curriculum. It also develops positive environmental values in students and the whole school community. WasteSorted Schools (WSS) is a State Government program administered by the Waste Authority.

Water Corp - Water Conservation

Living on the world's driest inhabited continent we need to understand how to save and supply water. The Waterwise School Program resources provide a tailored educational experience for students. The Waterwise School team delivers hands-on workshops at schools to build on students' knowledge and classroom focus where they learn about the protection and treatment process of our water source.

Exhibition Holders

The following organisations will be represented with a booth / display at our Earthcare Expo for you to explore and learn.

Brain and Cognition Clinic

The Brain & Cognition Clinic is part of the Perth Integrated Health Group and it leads the way in the area of Cognitive Medicine. Our involvement with the Earthcare Expo is specifically to present our clinical application to the preservation of future generations of human with the early screening and detection of Alzheimer's through our non for profit Cognitive Health Assessment which we are showcasing for the Perth Hills community at this Expo.

We are at www.braincognition.com.au

Claw Environmental & Bottle Top Hill

CLAW Environmental provides plastic recycling services throughout Western Australia specialising in expanded polystyrene and rigid plastics - polyethylene (PE #2) and polypropylene (PP #5). Rigid plastics like lids, bins, pots, pipes, drums, crates etc are shredded, washed, and extruded to produce a rice-grain sized pellet, which is returned to Australian manufacturing to be turned back into tree guards, watering cans, bins, and many other items. We work closely with Bottle Top Hill who use the collection of lids as a source of education on sustainability and recycling. They are an award winning NFP community service organisation and grass roots movement that incorporates a Climate Change Leaders program. They were winners in WA's 2023 UN Day Environmental Action Awards.

City of Kalamunda - FOGO / Waste Education

The waste services Team at the City of Kalamunda will promote FOGO and Waste & Recycling via their educational display and through engagement with students.

City of Kalamunda - Natural Areas

The City of Kalamunda's Parks & Environmental business unit will set up a 'Natural Areas' stall at the expo. We will provide information about the City's Adopt-A-Patch program as well as other relevant environmental programs and educational materials for local residents.

Elixir Honey

Elixir Honey was established over 20 years ago, arising from a passion for beekeeping and producing the highest quality raw, wild honey. Our honey is sourced from our own 400 hives which we keep in the wild, pristine, remote forests and native bushlands of Western Australia. At Elixir we work hard to bring you the purest honey possible. To achieve that goal, we focus on the health of our bees and the land on which we source and harvest our honey.

Eva Czulowski- Carnaby Black Cockatoo

The population of an endangered cockatoo species endemic to Western Australia is growing thanks to a project spearheaded by a young conservationist Eva Czulowski. Eva has spent many of her school years pioneering a project to build 40 artificial nests to help boost the population of the endangered Carnaby's Black Cockatoo.

Exhibition Holders

The following organisations will be represented with a booth / display at our Earthcare Expo for you to explore and learn.

Kaarakin Black Cockatoo Conservation Centre

Kaarakin Black Cockatoo Conservation Centre is a specialist wildlife centre located in Perth, Western Australia, dedicated to the rescue and rehabilitation of sick and injured wild native black cockatoos. We are the only facility dedicated to the conservation and rehabilitation of black cockatoos in Australia.

Kanyana - Wildlife Rehabilitation Centre

We are a Wildlife Rehabilitation Centre. The main focus of our work is our hospital where we take in injured and sick animals and return them to the wild. We also have a Bilby Breeding Program and an Education Program.

Keep Australia Beautiful Council

Keep Australia Beautiful aims to educate the community about the impact litter has on the environment and encourage people to dispose of their litter correctly. We educate through information and activities, as well as incentives. We will conduct games and quizzes and encourage families to get involved in our Adopt-a-Spot program.

Little Green Steps

"We believe in the ripple effect of Early Childhood Education to empower children to actively contribute to a sustainable future." Little Green Steps WA (LGSWA) is a practical training and support program linked to current research, to embed 'reaching out and treading lightly' through "Social Handprint and Ecological Footprint". LGSWA is aligned to the National Quality Standard (NQS), Early Years Learning Framework (EYLF) and Australian Curriculum (AC) outcomes. We are dedicated to a sustainable future through practical measures built around lived experience and are driven by a desire to preserve all that is unique about our planet for future generations.

Millennium Kids

Millennium Kids is an environmental youth organisation that empowers and supports children and young people to take action on sustainability issues in their Communities. GreenLAB is our citizen science and action program designed by young people to increase, protect and monitor tree canopy within the Greater Perth area. During the Earthcare Expo each class will participate in GreenLAB nature activities in Currawong Reserve to explore and rehabilitate this area supported by the City of Kalamunda's Adopt-A-Patch program.

MMPS Community Kitchen

Our MMPS Community Kitchen produce project is for you to take what you need, leave what you can, or swap. All in season produce is home grown from our community and school gardens ensuring no food goes to waste. MMPS worm tea and Sunflower Seeds of Hope will be on sale for \$2.

Exhibition Holders

The following organisations will be represented with a booth / display at our Earthcare Expo for you to explore and learn.

MMPS STEM Kids – Cottage Firewise Garden Project

This year, eight MMPS students represented our school with 350 other Catholic students showcasing innovation and excellence. Our STEM Challenge students created the Cottage Firewise Garden Project. This project demonstrates a solution to protect homes in the Perth hills against the increased risk of wildfires due to climate change.

MMPS Solar Car Challenge Kids

The class of 2024 formed groups, built and tested solar panel cars. The class tested wheel and gear size and the angle of the panel to race each other on the school courts. The winning team advanced to the state challenge attended by 53 schools in the metropolitan area.

MMPS Wellbeing

All students have the right to learn and feel happy in a safe and secure environment. Health and Wellbeing is also prioritised with initiatives like school gardens promoting healthy eating and outdoor learning. These projects foster a connection with nature, enhance spiritual wellbeing, and teach agricultural skills.

One World Centre

One World Centre is an education and learning resource centre focused on global issues such as human rights, sustainable lifestyles, migration and multiculturalism, climate action, social justice and equality. The OWC specialises in supporting individuals and communities to develop the capabilities that empower them to make positive differences in an increasingly challenging and interconnected world. We support and participate in local action and partnerships for the United Nations Sustainable Development Goals, and our activities are underpinned by our Reconciliation Action Plan. The OWC is a non-government, not-for-profit organisation.

SERCUL

SERCUL's Phosphorus Awareness Project is an education campaign aimed at increasing people's awareness about the impact of too many nutrients entering waterways. Our display will highlight the connection between what we do in our homes and gardens and the impact it has on waterways.

Waste Sorted Schools - Waste Relay

The WasteSorted Schools program provides support to schools across Western Australia (WA) to promote responsible waste management behaviours, with a focus on waste avoidance and resource recovery. It offers resources and support to implement projects such as recycling, composting and worm farming, which provide meaningful, hands-on learning experiences that are linked to the WA Curriculum. It also develops positive environmental values in students and the whole school community. WasteSorted Schools (WSS) is a State Government program administered by the Waste Authority.

Wheelchair for Kids

Wheelchair for Kids is a not-for-profit organisation whose primary aim is to design, build and distribute wheelchairs for children living with a disability.

Our Journey ...

The MMPS timeline of community sustainability actions, projects and celebrations

*From little things,
big things grow...*

2014

Set up six raised garden beds with herbs and vegetables for use by our canteen and sold surplus to our school community on market days. Started a battery recycling collection point in our office.

2015

Became a Waste Wise School. Formed our first Student Green Team and Sustainability Committee.

2016

Set up two compost bins, a fridge worm farm, and collection buckets. Improved waste management systems.

2017

Maggie Dent opened our new Loquat Grove Nature Playground, built by our MMPS parents and friends. Introduced waste sorting bin systems around the grounds and in classrooms.

2018

Created the MMPS Recycling Hub and entered our first Sustainable Scarecrow into the Perth Royal Show - Sustainable Steve.

2019

Awarded the CEWA QCS Community Award for Loquat Grove. Became a Sustainable School. Launched the MMPS Sustainability Blog. Installed into the Early Years Playground, raised garden beds, a compost tumbler and mini worm farm.

2020

Finalist in the 2020 Infinity Awards – Waste Wise School of the Year. Built our Sacred Space. Created "Microbe City" with four compost bins, two worm farm fridges, and two open bay compost bays. Held our first Harvest Market Day, selling MMPS Worm Tea and organic produce. Started collecting Containers for Change for Wheelchairs for Kids. Added a water tank to the Early Years Playground.

2021

Achieved Earthcare School Level 1. Developed our Sustainable Events Guide. Planted a Bush Tucker Garden. Invested in solar panels and set up a small greenhouse. **Received high commendation in the Waste Sorted Awards.** Created the Harmony Garden and painted an Aboriginal Mural with Melissa Spillman. Installed a yarnning circle.

2022

Advanced to Earthcare School Level 2. Met Costa Georgiadis at the Kalamunda Garden Show and raised funds for Ukraine through our Seeds of Hope initiative. Launched the Laudato Si' book collection, supported by our P&F. Set up three Veggie Pods. **Won the CEWA QCS Student Voice Award for our Seeds of Hope Project.**

2023

Reached Earthcare School Level 3. Started the Adopt-A-Patch program in collaboration with the City of Kalamunda and Millennium Kids. The STEM Challenge team presented the Vertical Garden Project to Reduce Urban Heating and won the Communication Award. **Showcased our school's sustainability actions online to the Catholic Earthcare Schools Program Network.** Started sewing hearts for the 1000 Hearts Project. Launched the MMPS Community Kitchen and the Community Creative Circle.

2024

Attained Earthcare School Level 4 early in the year. The STEM Challenge team presented the Cottage Firewise Garden Project. Built a Tiddalick frog pond and frog bog in the Harmony Garden. Hosted our inaugural Earthcare Expo.
Achieved Australia-first environmental certification Earthcare School Level 5.

Places of Interest

***see map**

Adopt a Patch

In partnership with the City of Kalamunda and Millenium Kids we have adopted a patch of land on Currawong Reserve to regenerate and bring back to its once thriving ecosystem.

Sacred Space

A place of prayer and mindfulness where we can come together as a community to feel closer to God in a natural environment.

Fire Pit

Our garden pruning is collected throughout the year and then lit up and enjoyed as a bon fire for our dad's and kids.

Habitat Nesting Boxes

Possum boxes and a microbat box are installed in trees around our grounds to support local wildlife.

Cottage Firewise Garden

Our STEM Challenge students created the Cottage Firewise Garden Project. This project demonstrates a solution to protect our house in the Perth hills against the increased risk of wildfires due to climate change.

Community Recycling Hub

A place our community can recycle those hard to recycle items. We are currently diverting 11 waste streams from landfill.

Year 4 - Lavender Pollinators Patch

A newly established garden to provide plants for pollinating insects.

Mindful Moments in our Chapel

The doors are always open in our peaceful Chapel to stop for a prayer or a quiet mindful moment.

Year 1 - Mini Farm

Our Year 1 mini farm is full of veggies, herbs and flowers all planted, nurtured, and used by our young students. The children enjoy caring for their little worms in their worm café too.

Loquat Grove

One of the most loved areas of our school grounds. Nature Play at its best take place here by all.

Year 5 - Microbe City

Consisting of 2 worm farm fridges, 4 compost bins and 2 open compost bays....all our food scraps are processed here.

Sustainability Station

This is a new initiative that repurposes everyday household items that otherwise may have been discarded. Specific items are collected at one time and used for projects or in the student's loose parts play.

Early Years Living Classroom

The children in the early years have plenty of opportunities to care for their living classroom. There are always veggies, herbs and flowers to tend to, and rain water from their little water tank. Along with their little worm farm and compost tumbler, the children have "real life" hand on experiences to care for our common home.

Places of Interest

***see map**

Year 3 - Herb Heaven

Our Year 3 class planted and tend to beautiful fresh herbs that are used in our cooking classes and make a nice addition to our Community Kitchen.

Assunta's Garden

Assunta is our very special, longest servicing staff member on the MMPS Team with over 50 years service. Why wouldn't she have her own flower garden on our school ground?

MMPS Community Kitchen

Our community kitchen is a repurposed kitchenette for our school community to share, take or donate excess produce to avoid food waste. Delicious seasonal goodies can be enjoyed by all.

Way 2 Wellbeing Walkway

Painted with love to reflect our school and wider community. It is definitely a wall to brighten someone's day, and a chance to reflect on all 24 character strengths.

Friendship Flowers

Our Year 2 students can't get enough of flowers. Along with everlastings the children planted from seeds in the grow bags, they have a range of flowers in their veggie pods about to burst in to bloom come spring time.

Sit for a While Bench

Flora and Fauna: This beautifully restored mosaic seat was bought back to life by one of our Year 6 classes. The designs were made by the students showing flora and fauna from around Australia. So please sit for a while.

Year 6 - Potatoes

Our eagerly anticipated chip day is not too far away as the Year 6 students grow potatoes each year to harvest and cook 3 ways – chips, wedges and mash - Yum.

Laudato Si' Library Collection

Thanks to our P&F who funded this awesome resource! A beautiful collection of Earthcare books for students and staff in 4 categories – Earthcare, Wellbeing, Aboriginal Education and Social Justice.

Harmony Garden

This area of our school is definitely on its way as an example of Healing Country. With our whole school community coming together to contribute to its success. Along the meandering pathway you will see native plants, a bee hotel, a microbat box, a yarning circle, Noongar season boomerangs, a lizard log, frog pond and bog and plenty of evidence that wildlife big and small have visited this area.

Tiddalick the Frog Pond and Bog

This is a new exciting project that has just been launched during Science Week. The creation of our frog pond and bog is another way we are providing a habitat to help increase biodiversity.

Aboriginal Mural and Yarning Circle

Our Aboriginal Mural on our water tank within our Harmony Garden was created by Melissa Spillman from Maarakool Art and some of our students. It's another way we can pay our respect to the traditional owners of this land the Whadjuk people of the Noongar Nation.

Why Laudato Si'?

Guided by the Steps to Ecological Dialogue framework from the Catholic Earthcare Schools Program, our mission has been to continually develop and deepen Laudato Si' themes that foster our profound ecological transformation and commitment to an ecological vocation.

We aim to ensure that our efforts are sustained and advanced, with a strong focus on addressing and contributing to all seven Laudato Si' Goals.

The Mary's Mount Primary School (MMPS) strategy involves active engagement with external groups, sharing our sustainability journey, and leading by example in the broader community.

At MMPS, our entire community is dedicated to actively addressing the ecological crisis highlighted in Pope Francis' encyclical Laudato Si'. We strive to be conscientious stewards of the environment by adopting and promoting sustainable practices. By embedding these practices into every facet of school life, we not only raise environmental awareness but also nurture gospel values that will guide our students throughout their lives.

By rigorously integrating Laudato Si' themes into our curriculum and all areas of learning, we strive for comprehensive embedding of ecological practices at every level of our school life. Our students engage with critical topics such as recycling, conservation, climate change, and biodiversity across all learning areas, including the Arts and Languages. This holistic approach helps us fully live out our ecological vocation, making sustainability an integral part of our educational experience and everyday practices and attitudes.

In addition, we are committed to promoting and actioning advocacy within our school community. By encouraging students, staff, and stakeholders to take meaningful action, we believe we have instilled hope and a sense of responsibility in them.

Through our commitment, we hope to inspire a generation that actively contributes to a better future and the wellbeing of our planet.
